

李明

Backend Platform Engineer / 后端工程师

上海 · 138-1234-5678 · liming.dev@example.com · github.com/liming-dev

Summary

Backend platform engineer focused on reliable services, observability, and practical delivery.

Education

2016.09 - 2020.06 华东理工大学 Software Engineering 本科

Experience

上海云启科技有限公司 2022.07 - Present Backend Platform Engineer / 后端工程师

Designed Spring Boot services for an order platform handling 1.2M requests per day.

Improved PostgreSQL query plans and Redis caching, reducing p99 latency by 45%.

杭州数澜信息技术有限公司 2020.07 - 2022.06 Backend Engineer / 后端开发工程师

Built data synchronization services used by more than 30 downstream systems.

Projects

项目一：订单结算平台

开发时间：2023.01 - 2023.09

技术负责人：Built a recoverable settlement workflow with Kafka and PostgreSQL.

项目二：实时风控平台

开发时间：2021.03 - 2021.12

后端开发：Implemented millisecond-level rule-based risk blocking.

Skills

编程语言：Java, Python

框架：Spring Boot, Spring Cloud

数据与消息：PostgreSQL, Redis, Kafka

证书

AWS Certified Developer

软件设计师
